Your physician will document in your record his or her expectations of the members of your health care team. Members of your health care team will then record the actions they took and their observations. In that way, the physician will know how you are responding to treatment. We will also provide your physician or a subsequent health care provider with copies of various reports that should assist him or her in treating you once you're discharged from this hospital.

Business associates: There are some services provided in our organization through contacts and business associates. Examples include physician services in the emergency department and radiology, certain laboratory tests, and a copy service we use when making copies of your health record. When these services are contracted, we may disclose your health information to our business associates so that they can perform the job we've asked them to do and bill you or your third-party payer for services rendered. To protect your health information, however, we require the business associate to appropriately safeguard your information.

This information may be provided to members of the clergy and, except for religious affiliation, to other people who ask for you by name.

Communication with family: Health professionals, using their best judgment, may disclose to a family member, other relative, close personal friend or any other person you identify, health information relevant to that person's involvement in your care or payment related to your care.

Open treatment areas: Sometimes patient care is provided in an open treatment area. While special care is taken to maintain patient privacy, others may overhear some patient information while receiving treatment. Should you be uncomfortable with this, please bring this to the attention of our privacy officer.
